

Community Care Access Centre

The Community Care Access Centre (CCAC) helps you find care services at home. All services are paid through your Ontario Health Card. Some of the in-home services provided include:

- Nursing
- Occupational therapy
- Physiotherapy
- Social work
- Dieticians
- Personal support workers

A CCAC case manager can help assess your needs. The services you need will be set up before you leave your rehabilitation centre. Your social worker or other member of your care team can refer you to CCAC.

Visit www.HealthCareAtHome.ca to find out more about services.

Contact your Social Worker for more information.
